

# One Day Immersion in Media, Entertainment & Technology

SUPPORTED BY THE EMMA BOWEN FOUNDATION

Connecting the media, entertainment and tech industry with future leaders!

One Day Immersion (ODI) pulls back the curtain and shows college students, graduate level candidates and recent graduates how to go from the classroom to the boardroom. Corporate partners engage with new leaders and executives share their industry expertise. This unfettered interaction between corporate partners, students, and top media and tech executives creates an explosion of unlimited possibilities.

Whether you're an executive with career expertise to share, young talent looking for advice and connections, or a corporate partner looking for new leaders and strong engagement, One Day Immersion is a must attend event for 2017.

All attendees receive a free Exhibit Floor Pass to the Cable-Tec Expo®, following the conference, October 17-20, giving you access to almost 400 technology vendors. Discover new services and creative innovations.

Event is free and open to all current college students and recent graduates.
